

Registration and Course Booking Instructions

Italian courses for adult learners

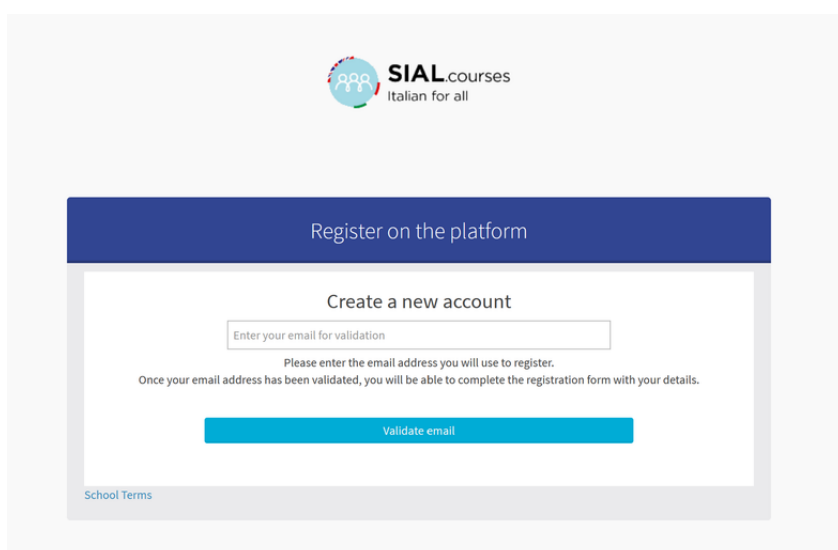

To make your learning experience as smooth as possible, we've introduced a new platform where you can enrol, manage your course details, and access everything you need in one place.

To get started, you'll first need to create an account.

Once your account is set up, you'll be able to select and purchase the course that best matches your level.

Registration

You will be asked to create your account.

The screenshot shows the SIAL.courses registration interface. At the top is the SIAL.courses logo with the tagline 'Italian for all'. Below it is a dark blue header with the text 'Register on the platform'. The main content area is titled 'Create a new account' and contains a text input field labeled 'Enter your email for validation'. Below the field, it says 'Please enter the email address you will use to register.' and 'Once your email address has been validated, you will be able to complete the registration form with your details.' A blue button labeled 'Validate email' is at the bottom of the form. A link for 'School Terms' is visible in the bottom left corner of the form area.

Returning students: Please register using the same email address you have previously used with us. You will receive a verification email to confirm your address. Once your email address has been verified, the system will recognise it and ask you to confirm your name before continuing with the registration process. After you have confirmed your identity, your existing details will be automatically retrieved.

New students: You will receive a verification email to confirm your address. Once verified, you will be asked to complete the registration form to create your profile from scratch.

Please choose your level carefully, as you won't be able to change it yourself after registration. If you're unsure of your level, you can take an [assessment test](#) or contact our office for advice at italiano-adulti@sial.courses

Once your registration is complete, you'll be redirected to your personal dashboard, where all the courses available for your selected level will be displayed. From there, you'll be able to choose and book the course that best suits your needs.
